Tips and Tricks

- Find stuff near your spawn
  - Non-home borderlands: home camp, home tower, south camp
  - Home borderland: northern 3 camps, northern two towers
  - Spawn keep on non-home BL
  - Ruins/sentries near spawn
- EBG for fight-based objectives
  - Defense: easy if you hold SMC or if your keep/towers are under attack
  - Player kills: Big AOE builds make this fast

Tips and Tricks, Part 2

- Veteran Creatures: all 3 on Desert are good options, Wurm on home alpine, Harpy on blue BL if green/green BL if red
- Desert shrines give better participation, desert ruins are quiet, home alpine north ruins are fast
- Big Spender: buy siege blueprints, infusions, badges of tribute in Guild Hall, bags/weapons/armor if you need them
- Days with camps/yaks/guards can be very fast

Vet Creature Locations

Always Wurm, Warg, Harpy from West to East

Objectives

- Camps: every camp will let you stack guards at a corner and cleave
- Towers: 1 ram/cata vs. unupgraded (“paper”) tower, 2-3 people normally makes it trivial if unopposed
- Keeps: can do with 3-5 easily even if not well coordinated *if* you know the catapult spots
- Don’t be afraid to announce in map chat or even tag up for a quick daily objective!
